

#### Para Rubber Furniture

*The world need ....Flexible. Too demand of para liquid help increase planting tree to natural.*

## **FLEXIBLE CO., LTD.**

Para rubber is a Thai economical agricultural product. Thailand is a country which produces natural rubber as the top of the world. However, Thai Para rubber export is mainly raw material which has not yet been transformed as value added product. Thailand, therefore, loses great opportunity from this sector's gaining. For the above reason, "FLEXIBLE" has established "Para latex furniture" to produce a finished product with value added.

FLEXIBLE is an organization which is flexibility faithful as its core business. The flexibility consequently accompanies with typical business operation either in term of design and production process, product and service presentation, as well as natural raw material selection to get Para latex with elasticity characteristic and use local raw material. Hence, FLEXIBLE efficiently responds worldwide demands.

#### **Products**

The Para latex furniture is a product which is made from Para latex with modern design and unique characteristic of elasticity. It also appropriately promotes local raw material production.
